PLANT INTERIORS

Quality office plant displays
in Aberdeen, Aberdeenshire
and beyond - from a local,
independent company.

Creating a healthy, positive and
attractive work environment for
businesses of all sizes.

At Greenwood Interiors, we take pride in what we do – and how we do it.

Our talented and experienced people work with you to create designs that inspire.

Flexible in our approach and quick to respond when you need us, we use high-quality products in our tailored, cost-effective displays.

And you can depend on us to take care of things with our professional aftercare services.

For more than a decade, Greenwood Interiors has been the supplier of choice to companies large and small, across many business sectors.

We enjoy long-standing professional relationships with clients who appreciate the benefits of a green and pleasant workplace: a healthier environment, motivated staff, better productivity and a truly professional image.

You can rent or
you can buy –
whatever works
best for you.

From the simple to the sophisticated, from the classic to the dramatic, we create and maintain unique office plant displays for clients in Aberdeen and throughout the north-east of Scotland.

We supply high-quality foliage plants, trees and flowers – and complement them with containers that come in an equally extensive range of colours, styles and finishes.

You can rent, which means no initial capital outlay, or you can buy – whatever works best for you.

Interior plants

Whether it's for an office, restaurant, bar, hotel, private residence, or even a one-off special event, we take care of everything. We blend our ideas with yours, supply the products you like, then create – and maintain – the look you want. Hassle-free and cost-effective, our options make it easy to go green.

Exterior plants

Our external displays are a breath of fresh air. Hanging baskets, planter pots, window boxes – you name them, we supply them and look after them for you. The options are boundless as we work with you to create a transformational look, one that complements your interior style and augments the building itself.

Flowers

We believe our flower services are the pick of the bunch. When you want your corporate event, exhibition stand or staff dance to blossom – or you simply wish to augment your office plant displays with some new colour and vibrancy – floral arrangements from Greenwood Interiors always make the difference.

Artificial displays

Artificial plants supplied by Greenwood Interiors are a genuine option if the conditions don't suit the real thing. The perfect alternative when light, heat or aftercare access is an issue, they've an authentic look and feel – and of course mean minimal maintenance. Colour, style and quality when the natural option doesn't work for you.

Christmas trees

'Tis the season to be jolly... so let Greenwood Interiors deck your halls with boughs of holly. We can help to spread festive cheer throughout your business, providing fully decorated Christmas trees (live and artificial) as well as a wide variety of other decorations.

We strive to use eco-friendly techniques and practices: a green approach to keeping your offices green.

Maintenance

Expert maintenance services come as part of the package when you rent Greenwood Interiors products. Your plants receive regular care and attention from experienced staff members to ensure they're always in tip-top condition. And if your plants are past their best, we replace them free of charge. Our aftercare support is also available to you if you buy our plants, or already own some. And we strive to use eco-friendly techniques and practices: a green approach to keeping your offices green.

Greenwood have provided Dril-Quip with Office Plants and Maintenance Services for the last 15 Plus years. During this time I have found both Greenwood the company and their staff to be very professional, providing an excellent responsive service, supplying a varied range of plants for varied office locations.

We recently refurbished a 27000 sq ft three storey office block, Greenwood was our first choice with providing the plants for this facility.
